FAMILY AND STATE MODELS.

The possibilities as to the commercial hopelessly out of it. value of marriage received a new illustration in Penusylvania the other day. There was a double wedding in Allegheny, the peculiarity of which lay in the fact that a brother and sister from one family married a sister and brother, respectively, from another family,

The fathers of the two sets of children had long carried on a dairy business in partnership, and both having recently died, it began to look as if the business division. A happy thought struck some- dred yards be gave up in disgust. body interested, who didn't hesitate to business will continue presperous and creamy. Thus, on foundations laid by the one generation seems to stand a very comfortable structure for the next, and very likely, even for still a third.

What a pleasant picture o' a State perfeetly preserved by the we ded interests of its children, which would then be the can draw from this little family arrange ment. And at the bottom of the original theory of statehood is just such a combination of interests and effort as is exhibited in the literal wedlock of those Pennsylvania descendents. How nearly while passing through the County Court-does the actual practice approach the House to-day I mei James McIneraey, Chief Tw theory in these days?

AGAINST THE GAS TANKS.

at One Hundred and Thirty-first street and often gives them points. He is the right and the Boulevard. It was a gather ng hand man I the Justice who may be detailed of fully two hundred substantial re-idents and property-owners of the neighborhood, who came together to protest veninst the proposed establishment of a Standard Gas Company plant to that locality.

The protest was a timely and a strong one. These engaged in the movement amountee that they will spare no effort cury. This branch of the court House, serving the threatened encrops towards accomplishing their object of preventing the threatened encrops and the completed and in running order by ment. In the state of affairs already existing about the vicinity of the gas existing about the vicinity of the gas works at One Hundred and Six has a particular to the court House, serving the completed and in running order by me and that town before I hardly stopped me establishment. The works and the tanks and property owners to prevent the Company are dissemm nature of discomforting and beautifulning to road along their thoroughdisease-breed ng geries, and orm a unit tare sance not to be tolerated,

Whatever else might be denied han be buried as comfortably as his means would allow under ground which had teen familiar to him while yet he have !-This right seems not to be n iv recogbody is inclosed in a hermetically seared beametallic coffin or the corper is put in a vault constructed with the approval of the Foard.
